

Our Building for the Future - Indicators Explorer is live

Posted: 1 July 2021

Check out our new tool to track the building system's progress

We have just released The Building for the Future - Indicators Explorer - a new online tool that provides a snapshot of New Zealand's building system across social, economic and environmental indicators.

The explorer collates data from a range of sources and presents this in one place to track the building system's progress against the outcomes identified in the Building System Regulatory Strategy - Building for the Future.

Data will be updated regularly and further information will be added as it becomes available over the next 10-15 years.

Check out the Indicators Explorer (<https://www.building.govt.nz/http://mbienz.shinyapps.io/BuildingForTheFuture/>)
