Building (Product Recognition WaterMark Copper and Copper Alloy Waste Fittings) Notice 2026: RN-10028

1 Title

This is the Building (Product Recognition WaterMark Copper and Copper Alloy Waste Fittings) Notice 2026: RN-10028.

2 Commencement

This notice comes into force on 9 February 2026.

3 Interpretation

In this notice of recognition, unless the context otherwise requires,—

Act means the Building Act 2004

Building Code means the New Zealand Building Code, which is Schedule 1 of the Building Regulations 1992, made under section 400 of the Act.

Certified intended use means the intended use of the building product certified by the certification body and as described in either the product certificate, building product's manual, or other relevant materials.

Conformity assessment body (CAB) means an organisation that certifies activities to demonstrate that a product, process, system, person, or body meets specified requirements for the WaterMark certification scheme.

Product type means a plumbing or drainage product that presents a public risk requiring mitigation, as determined by the Protocol for the Assessment of Risks of Plumbing Product under the WaterMark scheme. It is regulated under the Plumbing Code of Australia and listed in the WaterMark Schedule of Products.

4 Recognition of the following certified WaterMark products

Under section 272HA of the Act, I recognise the building products certified under the overseas product certification scheme, WaterMark, that are included in the product certificates listed in Schedule 1 of this notice.

5 Certified intended use of building product

The certified intended use of the product types listed in Schedule 1 of this notice are the product scope/applications of the product type categories under the WaterMark certification scheme, known as the WaterMark Schedule of Products – Fittings – Metallic.

Copper alloy fittings: Copper alloy waste fittings including traps, gullies, waste outlets, gratings and connectors.

Copper fittings: Copper alloy waste fittings including traps, gullies, waste outlets, gratings and connectors.

Copper and copper alloy gullies and expansion joints: Copper and copper alloy waste fittings for use in sanitary plumbing installations including traps, gullies, waste outlets, gratings, and connectors.

6 Conditions and limitations of this notice

The conditions and limitations of this recognition notice are set out in Schedule 1.

Building Act 2004, section 272HA

Schedule 1

List of WaterMark certificates with recognised building products

Standard	Standard title	AS/NZS 3500 series link	Equivalent acceptable solution or verification method	Building Code performance clauses
AS 1589:2001	Copper and copper alloy waste fittings	N/A	B2/AS1, F2/AS1, G13/AS1	B2.3.1(a)(b), F2.3.1, G13.3.1(a)(b)(c)
Conditions and limitations of recognition				
The building products recognised by this notice must be installed according to the conditions and limitations specified in the product certificate for the relevant building product, as set out in Schedule 1 of this notice. So long as the user complies with the requirements in the product certificate (if any), the standard it is certified against (if any), and the relevant technical installation information from the manufacturer, the building products listed comply with the relevant clauses listed in this table. The <i>Additional conditions and limitations</i> in this schedule are additional requirements imposed by the Ministry of Business, Innovation and Employment. The certified intended uses of the building products in this table are laid out in the WaterMark Schedule of Products – Sanitary fixtures and Valves, listed in clause 5 of this notice.
