## **Building (Product Recognition WaterMark Water Heaters and Hot-Water Storage Tanks) Notice 2026: RN-10034**

This notice is made under section 272HA of the Building Act 2004 by Simon Thomas, Head of Building System Delivery and Assurance at the Ministry of Business, Innovation and Employment (MBIE), under the delegated authority of MBIE's Chief Executive.

This notice recognises building products specified in the product certificates in Schedule 1 of this notice, which are certified under the WaterMark certification scheme in Australia.

## Building (Product Recognition WaterMark Water Heaters and Hot-Water Storage Tanks) Notice 2026: RN-10034

### 1 Title

This is the Building (Product Recognition WaterMark Water Heaters and Hot-Water Storage Tanks) Notice 2026: RN-10034.

### 2 Commencement

This notice comes into force on 9 February 2026.

### 3 Interpretation

In this notice of recognition, unless the context otherwise requires,—

*Act* means the Building Act 2004

*Building Code* means the New Zealand Building Code, which is Schedule 1 of the Building Regulations 1992, made under section 400 of the Act.

*Certified intended use* means the intended use of the building product certified by the certification body and as described in either the product certificate, building product's manual, or other relevant materials.

*Conformity assessment body (CAB)* means an organisation that certifies activities to demonstrate that a product, process, system, person, or body meets specified requirements for the WaterMark certification scheme.

*Product type* means a plumbing or drainage product that presents a public risk requiring mitigation, as determined by the Protocol for the Assessment of Risks of Plumbing Product under the WaterMark scheme. It is regulated under the Plumbing Code of Australia and listed in the WaterMark Schedule of Products.

### 4 Recognition of the following certified WaterMark products

Under section 272HA of the Act, I recognise the building products certified under the overseas product certification scheme, WaterMark, that are included in the product certificates listed in Schedule 1 of this notice.

### 5 Certified intended use of building product

The certified intended use of the product types listed in Schedule 1 of this notice are the product scope/applications of the product type categories under the WaterMark certification scheme, known as the WaterMark Schedule of Products – Systems and Heated water products.

*Modular heated water systems:* Modular heated water systems for the generation of heated water which may incorporate hot, cold and tempered water systems, water heaters and heated and cold-water storage tanks.

*Instantaneous (continuous flow) water heaters:* Electric resistance.

**Instantaneous (continuous flow) water heaters:** Gas, such as liquefied petroleum gas (LPG) and natural gas (NG).

**Storage water heaters:** Electric resistance (direct and indirect).

**Storage water heaters:** Gas, such as liquefied petroleum gas (LPG) and natural gas (NG).

**Solar water heating systems:** N/A.

**Heat exchange water heaters:** N/A.

**Calorifiers:** N/A.

**Heated water and pre-heat storage:** N/A.

**Boiling water dispensers:** Boiling water dispensers and appliances dispensing hot water at near boiling temperature. Noting that integral components are to be assessed to their applicable specification.

**Geothermal energy heat pump systems for home air conditioning and supplementary potable water heaters:** Geothermal system for air conditioning and storing energy in the water contained in a storage tank. During the cooling period, heat extracted from the ambient by the system is stored in water, and the heat transfer is facilitated by a stainless-steel heat exchanger. The water is stored in an electric storage water heater. When the temperature in the tank gets to 600C, heat transfer from the refrigerant to the waterside is stopped by deenergizing a pump that transfers water from the storage tank to the heat exchanger and back to the storage tank. Water Mark Certification is only for components covered under the Plumbing Code of Australia (PCA). WaterMark Certification shall not be used to cover off on components that may lie outside the PCA scope, such as refrigeration equipment.

## 6 Conditions and limitations of this notice

The conditions and limitations of this recognition notice are set out in Schedule 1.

Building Act 2004, section 272HA

## Schedule 1

### List of WaterMark certificates with recognised building products

| Standard     | Standard title  | AS/NZS 3500 series link      | Equivalent acceptable solution or verification method | Building Code performance clauses                           |
|--------------|---|------------------------------|---|---|
| AS 3498:2020 | Safety and public health requirements for plumbing products – Water | AS/NZS 3500.1, AS/NZS 3500.4 | B2/AS1, G12/AS1, G12/AS3                              | B2.3.1(b), F2.3.1, G12.3.2(c), G12.3.8 (a) and (b), G12.3.9 |

|   |                                     |                           |                    |  |
|---|-------------------------------------|---------------------------|--------------------|--|

Made at Wellington on 14 January 2026.

Simon Thomas  
Head of Building System Delivery and Assurance at the Ministry of Business, Innovation and  
Employment (MBIE), under the delegated authority of MBIE's Chief Executive

### Explanatory note

This notice, which comes into force on 9 February 2026, is made under section 272HA of the Building Act 2004 (the Act).

This notice recognises the building products specified in the notice, which are certified under the WaterMark certification scheme in Australia.

This notice may form part of a building consent application.
