Building (Product Recognition WaterMark Valves for the Control of Heated Water Supply Temperatures) Notice 2026: RN- 10037

This notice is made under section 272HA of the Building Act 2004 by Simon Thomas, Head of Building System Delivery and Assurance at the Ministry of Business, Innovation and Employment (MBIE), under the delegated authority of MBIE's Chief Executive.

This notice recognises building products specified in the product certificates in Schedule 1 of this notice, which are certified under the WaterMark certification scheme in Australia.

Building (Product Recognition WaterMark Valves for the Control of Heated Water Supply Temperatures) Notice 2026: RN- 10037

1 Title

This is the Building (Product Recognition WaterMark Valves for the Control of Heated Water Supply Temperatures) Notice 2026: RN-10037.

2 Commencement

This notice comes into force on 9 February 2026.

3 Interpretation

In this notice of recognition, unless the context otherwise requires,—

Act means the Building Act 2004

Building Code means the New Zealand Building Code, which is Schedule 1 of the Building Regulations 1992, made under section 400 of the Act.

Certified intended use means the intended use of the building product certified by the certification body and as described in either the product certificate, building product's manual, or other relevant materials.

Conformity assessment body (CAB) means an organisation that certifies activities to demonstrate that a product, process, system, person, or body meets specified requirements for the WaterMark certification scheme.

Product type means a plumbing or drainage product that presents a public risk requiring mitigation, as determined by the Protocol for the Assessment of Risks of Plumbing Product under the WaterMark scheme. It is regulated under the Plumbing Code of Australia and listed in the WaterMark Schedule of Products.

4 Recognition of the following certified WaterMark products

Under section 272HA of the Act, I recognise the building products certified under the overseas product certification scheme, WaterMark, that are included in the product certificates listed in Schedule 1 of this notice.

5 Certified intended use of building product

The certified intended use of the product types listed in Schedule 1 of this notice are the product scope/applications of the product type categories under the WaterMark certification scheme, known as the WaterMark Schedule of Products – Tapware.

Thermostatically controlled taps: Thermostatic mixing taps used for ablutionary purposes for use with heated water:

- a) at a supply temperature not exceeding 90°C;
- b) with working pressures not exceeding 1400 kPa; and
- c) of nominal sizes not larger than DN 20.

*** Lead free exceptions: bidet tapware; shower mixers, shower bath diverter mixers, floor standing bath filler and included mixers & showers, bath outlets – unrestricted flow, commercial pre-rinse spray tapware (not to apply to included pot fillers) are excluded from the lead-free requirements.

6 Conditions and limitations of this notice

The conditions and limitations of this recognition notice are set out in Schedule 1.

Building Act 2004, section 272HA

Schedule 1

List of WaterMark certificates with recognised building products

| Standard | Standard title | AS/NZS 3500 series link | Equivalent acceptable solution or verification method | Building Code performance clauses |
|----------------|---|-------------------------|---|--|
| AS 4032.4:2014 | Water supply – Valves for the control of heated water supply temperatures, Part 4: Thermostatically controlled taps for the control of heated water supply temperatures | N/A | B2/AS1, G12/AS1 | B2.3.1(c), F2.3.1, G12.3.2(c), G12.3.3 |

Conditions and limitations of recognition

The building products recognised by this notice must be installed according to the conditions and limitations specified in the product certificate for the relevant building product, as set out in Schedule 1 of this notice.

Where applicable copper alloy products such as tapware to be used in contact with drinking water certified under this standard will need to meet the lead-free requirements, as outlined in G12/AS1, from 1 May 2026. To be compliant the submitter must provide a valid lead-free test certificate from an IANZ-accredited body or equivalent to NSF/ANSI/CAN 372:2020. This must be provided with the building consent application for it to be accepted as establishing compliance with the Building Code.

So long as the user complies with the requirements in the product certificate (if any), the standard it is certified against (if any), and the relevant technical installation information from the manufacturer, the building products listed comply with the relevant clauses listed in this table.

The *Additional conditions and limitations* in this schedule are additional requirements imposed by the Ministry of Business, Innovation and Employment.

The certified intended uses of the building products in this table are laid out in the WaterMark Schedule of Products – Tapware, listed in clause 5 of this notice.

Certificates recognised as meeting AS 4032.4:2014

| | Conformity assessment body | Certificate number | Expiry date | Additional conditions and limitations |
