#### This National Multiple-Use Approval is subject to the following conditions:

- This National Multiple-Use Approval includes the Permitted Variations set out in this Schedule. If there are any changes to the approved plans and specifications this National Multiple-Use Approval does not apply. Minor variations in accordance with Building (Minor Variations) Regulations 2009 are permitted.
- This National Multiple-Use Approval can only be used where the following conditions apply:
- Wind zone: Limited to sites up to and including Very High wind zone as defined in NZS 3604:2011.
- Seismic zone: Sites in all earthquake zones and in all subsoil classes as defined in NZS 3604:2011.
- Exposure zone: Up to and including Zone D as defined in NZS 3604:2011, Except where adverse microclimatic factors (e.g. geothermal areas)
- Climate zones: Up to and including Zone 3 as defined in NZS 4218:2009.
- Snow Loading: Limited to sites with a maximum ground snow load of 2.2kPa as defined in NZS 3604:2011.
- Ground bearing capacity: Good ground as defined in B1 Structure Compliance Document
