DESCRIPTION OF BUILDING METHOD OR PRODUCT

Name of the product or method in New Zealand, including any brand names used. Description of what it is and the components that make up any system and its physical attributes including the materials and make-

Matters that should be taken into account in the use or application of the building method or product can be found in item 6. Conditions and Limitations of Use

DuPont Flashing Tapes are made of three components (film or fabric carrier, butyl rubber adhesive, and a release liner).

This certificate covers the following products:

- DuPont Flashing Tape (supplied in 22.9m rolls either 101mm, 152mm or 228mm wide)
- DuPont FlexWrap NF (supplied in 22.9 m rolls either 152 mm or 228 mm wide)

The building method's or building product's catalogue or model identification number or numbers or other unique identifiers that might be used to identify the building product or building method

INTENDED USE OF BUILDING METHOD OR PRODUCT

DuPont Flashing Tapes are used to flash around windows and doors as a secondary weather-resistant barrier. They may also be used at joinery heads to seal flashing upstands to the wall underlay.

NEW ZEALAND BUILDING CODE PROVISIONS

The performance clauses of the New Zealand Building Code that are relevant to the intended use and with which the building method or product complies or contributes to (where used as part of a system). How the building method or product complies or contributes can be found in item 9. Basis for Certification.

Any qualifications on the extent of that compliance can be found in item 6. Conditions and limitations of use. **B2 Durability**: B2.3.1 (a) B2.3.2

E2 External moisture: E2.3.2 (contributes to), E2.3.7

F2 Hazardous building materials: F2.3.1

This certificate is issued by an independent certification body accredited by JAS-ANZ, the product certification body appointed by the Chief Executive of the Ministry of Business, Innovation and Employment under the Building Act 2004. This certificate may only be reproduced in its entirety. It is advised to check that this certificate is currently valid and not withdrawn or suspended by referring to the Register of Product Certificates on the Building Performance website https://www.building.govt.nz.

DuPont Tyvek® Flashing Tapes

6 CONDITIONS AND LIMITATIONS OF USE

The building method or product's use is to be in accordance with the installation instructions and requirements against which the building method or product was assessed.

Conditions or limitations of conformity for the performance requirements the building method or product is compliant with, including any requirements for people with the qualifications and skills to install or use the building method or product, any known or demonstrated situations where the building method or product should not be used. A statement as to whether there are any matters that should be taken into account in the use or application of the building product or building method and, if so, what those matters are.

NOTE: Together, items 3,4,5 and 6 define scope of use

- 1. DuPont Flashing Tapes are certified for use in buildings
 - a) within the scope of E2/AS1, and
 - b) located in any wind zone up to and including EXTRA HIGH as defined in E2/AS1, and
 - c) located in any exposure zone.
- 2. DuPont Flashing Tapes shall be used in accordance with the Installation Guide for DuPont Flashing Tapes V2, 1 April 2015 and the requirements of Acceptable Solution E2/AS1.

HEALTH AND SAFETY INFORMATION

Health, safety, and well-being declarations associated with installation, maintenance, and use of the building method or product, and their specific editions and dates necessary to ensure the performance requirements of clauses F1 to F9 of the Building Code can be met.

The compliance with any manufacturer's installation instructions, maintenance, OH & S statements, MSDS's and other Health and Safety declarations will provide the necessary Health and Safety Information pertaining to the product.

3 SIGNATURES

Name and Signature of the Product Certification Body's (PCB) authorised representative and, where different, the person assigned by the PCB to make the certification decision
