Subject to the following conditions and limitations:

- Hydraulic lift installations fall outside the scope of this certificate.
- This certificate may only be used as a means of compliance when accompanied by a Schindler declaration that the specification, design, manufacture is in accordance with the Schindler methodology that is specified in this certificate.
- Prior to the Code Compliance Certificate being issued a Schindler declaration must be provided that installation is in accordance with the Schindler methodology that is specified in this certificate.
- Schindler Lifts NZ Ltd Maintenance Schedule is to be submitted with the building consent application and incorporated in the compliance schedule.
- Compliance with D1.3.4 (b) only applies where the lift car has the following internal dimensions:
 - Not less than 1200 x 2100mm OR not less than 1400 x 1400mm.
- Where the lift car width is less than 1400mm the lift controls are to be located on the adjacent wall.
- Any changes to a lift specification will then fall outside the scope of this certificate even if approved by Schindler Lifts NZ Ltd.
- This certificate may be relied upon as a means of compliance when considering a building consent application (Building Design, Building Materials) and also as evidence of compliance with the building consent (Method of Construction) provided that all conditions of this certificate are met.
