Introduction

This is a guide to building work which does not require a building consent under the Building Act 2004 (the Building Act). It concentrates on the list of exemptions contained in Schedule 1 of the Building Act.

This guide is mainly for building owners and practitioners who are planning to carry out or provide advice on any building work. It will also be of interest to regional and territorial authorities, who can use their discretion under Schedule 1 exemption 2 to exempt any building work from requiring a building consent.

Download the whole document as a PDF [here](https://www.building.govt.nz/assets/Uploads/projects-and-consents/building-work-consent-not-required-guidance.pdf) or read each section below.

Contents

  - Part 3: Building work for which design is carried out or reviewed by chartered professional engineer [here](https://www.building.govt.nz/projects-and-consents/planning-a-successful-build/scope-and-design/check-if-you-need-consents/building-consent-exemptions-for-low-risk-work/schedule-1-guidance/part-3/)

This information is published by the Ministry of Business, Innovation and Employment’s Chief Executive. It is a general guide only and, if used, does not relieve any person of the obligation to consider any matter to which the information relates according to the circumstances of the particular case. Expert advice may be required in specific circumstances. Where this information relates to assisting people:

- with compliance with the Building Act, it is published under section 175 of the Building Act
- with a Weathertight Services claim, it is published under section 12 of the Weathertight Homes Resolution Services Act 2006.
