

G14 Industrial liquid waste

Requires the safe and hygienic collection, treatment and disposal of industrial liquid waste to avoid contamination.

This clause ensures buildings in which industrial liquid waste or foul water is collected, generated, treated or disposed of are provided with adequate spaces and facilities to do so safely, avoiding the likelihood of blockage, leakage or contamination. It also sets requirements to prevent unauthorised access.

Record of amendments (<https://www.building.govt.nz/building-code-compliance/how-the-building-code-works/different-ways-to-comply/acceptable-solutions-and-verification-methods/record-of-amendments/>) is a record of changes to the Acceptable Solutions, Verification Methods and handbooks.

Updates

MBIE to consult twice yearly on changes to the Building Code System

10 AUGUST 2018

MBIE will now consult twice yearly to ensure Acceptable Solutions and Verification Methods are up to date.

Acceptable Solutions and Verification Methods

Current version

These are issued by MBIE to provide one way of complying with the Building Code and must be accepted by BCAs as demonstrating

Standards

Standards are frequently referred to in Acceptable Solutions and Verification Methods. They provide practical information and guidelines for building solutions.

Over 120 building standards used for Building Code compliance are now available for free download.

See the free standards relating to Code Clause G14

(<https://www.standards.govt.nz/sponsored-standards/building-standards/?buildingcode=G14>).

All standards, including the funded ones, can be accessed through the Standards New Zealand website (<https://www.standards.govt.nz/>).

Related Determinations

Determinations are made by MBIE on matters of doubt or dispute to do with building work. Rulings are legally binding in relation to each case. Circumstances in one case may differ to others.

2019/048: Refusal to issue a certificate of acceptance for plumbing and drainage work associated with a

2008/098: The issuing of a notice to fix concerning dangerous and insanitary aspects of a motel unit

shipping container used as a mortuary

<p>This determination considers the authority's refusal to issue a certificate of acceptance for plumbing and drainage work that was carried out without building consent. The plumbing and drainage work was installed to convert the shipping container for use as a mortuary and connects to an existing foul water drainage system that services a dwelling on the property, which in turn connects to a septic tank and evapotranspiration bed. </p>
