

# Acceptable Solutions and Verification Methods For New Zealand Building Code Clause G2 Laundering

---

All content related to G2 Laundering (<https://www.building.govt.nz/building-code-compliance/g-services-and-facilities/g2-laundering/>)

## 1st edition, amendment 3

Current version: Effective from 1 January 2017

### 1st edition, amendment 3

[PDF 474 KB]

<https://www.building.govt.nz/assets/Uploads/building-code-compliance/g-services-and-facilities/g2-laundering/asvm/g2-laundering-1st-edition-amendment3.pdf>

---

Acceptable Solutions and Verification Methods (<https://www.building.govt.nz/building-code-compliance/how-the-building-code-works/different-ways-to-comply/acceptable-solutions-and-verification-methods/>) (AS and VMs) were called compliance documents. Some still have the “compliance document” title but the AS or VMs they contain are valid and unaffected by the name change.

The reference to AS/NZS 1229:2002 is corrected. The minimum space requirements for laundries and laundries for persons with disabilities are clarified (paragraph 1.2 and Figures 1 and 2).

Cited content in this document (<https://codehub.building.govt.nz/resources/1533/#resource-citations>) can be found on the Building CodeHub website.

## 1st edition, amendment 2

Effective from 10 October 2011 to 30 May 2017

### 1st edition, amendment 2

[PDF 170 KB]

---

Acceptable Solutions and Verification Methods (<https://www.building.govt.nz/building-code-compliance/how-the-building-code-works/different-ways-to-comply/acceptable-solutions-and-verification-methods/>) (AS and VMs) were called compliance documents. Some still have the “compliance document” title but the AS or VMs they contain are valid and unaffected by the name change.

All of the Acceptable Solutions and Verification Methods relating to G2 are contained in one document.

- G2/AS1 sets out design solutions for a laundry tub or space and service connections for a washing machine. It shows service connections, minimum

dimensions for laundry accessibility, and the provision of facilities according to the number of people using the building.
