

Learn about rockfall

Last updated: 8 June 2017

This guideline is about the design of passive rockfall protection structures that act to reduce the effects of falling rock on people or structures.

Rockfall Guideline

Rockfall: Design considerations for passive protection structures (<https://www.building.govt.nz/building-code-compliance/b-stability/b1-structure/rockfall-design-considerations-for-passive-protection-structures/>) is part of the MBIE suite of geotechnical resources.

Rockfall educational resources

Video: Rockfall: Design considerations for passive protection structures

An overview for those involved in the design of passive rockfall protection structures.
