

# MultiProof application case studies

---

Last updated: 21 March 2016

The following examples illustrate how to document your design to get the most out of your MultiProof and provide the level of flexibility you require.

---

## Case study two: Prefabricated classroom units

[PDF 107 KB]

<https://www.building.govt.nz/assets/Uploads/building-code-compliance/certifications-programmes/multiproof/case-studies/multiproof-application-case-study-classroom.pdf>

---

Applicant B proposes to build prefabricated classrooms in a number of locations for use throughout New Zealand.

---

## Case study one: Simple residential units

[PDF 192 KB]

<https://www.building.govt.nz/assets/Uploads/building-code-compliance/certifications-programmes/multiproof/case-studies/multiproof-application-case-study-simple-residential.pdf>

---

Applicant A proposes to build a series of residential developments.

---

## Case study three: An application with parameter based variations

[PDF 101 KB]

<https://www.building.govt.nz/assets/Uploads/building-code-compliance/certifications-programmes/multiproof/case-studies/multiproof-application-case-study-parameter-variations.pdf>

---

Applicant C is a group home builder with a range of standard plans that are seldom built without customisation.

New Zealand Government

This information is published by the Ministry of Business, Innovation and Employment's Chief Executive. It is a general guide only and, if used, does not relieve any person of the obligation to consider any matter to which the information relates according to the circumstances of the particular case. Expert advice may be required in specific circumstances. Where this information relates to assisting people:

- with compliance with the Building Act, it is published under section 175 of the Building Act
- with a Weathertight Services claim, it is published under section 12 of the Weathertight Homes Resolution Services Act 2006.
