1st edition

Introduction

This product assurance decision tool can help you decide the best way to meet your Building Act responsibilities and show your building products or systems comply with the New Zealand Building Code.

If you use this as a worksheet the information could contribute to your business planning, help brief a testing specialist, or help you to apply for further assessment.

We have developed this decision tool after workshops with building consent authorities (BCAs), product manufacturers and suppliers, designers and others in the building industry.

This information is published by the Ministry of Business, Innovation and Employment's Chief Executive. It is a general guide only and, if used, does not relieve any person of the obligation to consider any matter to which the information relates according to the circumstances of the particular case. Expert advice may be required in specific circumstances. Where this information relates to assisting people:

- with compliance with the Building Act, it is published under section 175 of the Building Act
- with a Weathertight Services claim, it is published under section 12 of the Weathertight Homes Resolution Services Act 2006.
